

Ingredient Summary: What's in Our Cuticle Balms?

We know how important it is to understand what's going onto your nails, and your skin. Here's a simplified breakdown of the key ingredients used in our Cuticle Balms.

Key Ingredients & What They Do

Vitis Vinifera (Grape Seed) Oil: Lightweight and rich in antioxidants, this oil helps moisturise without feeling greasy.

Buxus Chinensis (Jojoba) Oil: Actually a liquid wax, jojoba closely mimics your skin's natural oils, making it ideal for deep hydration and repair.

Squalane: A silky-smooth emollient that softens dry skin and supports the skin barrier.

Tocopherols (Vitamin E): Helps protect and nourish the skin while extending the life of the product.

Beeswax: Locks in moisture and gives the balm its rich, buttery texture.

Perfume: Just a light, subtle fragrance to keep things feeling luxe.

What You Won't Find in Our Cuticle Balms

- No parabens
- No mineral oil
- No silicones
- No synthetic colourants
- No drying alcohols
- No animal testing

Possible Reactions

While our formula is designed to be gentle, everyone's skin is different.

- If you're sensitive to fragrance, you may experience mild irritation.
- If you have allergies to beeswax or natural oils, patch testing is recommended before full use.
- Discontinue use if redness, itching, or discomfort occurs.

Safety First

- For external use only
- Store in a cool, dry place away from direct sunlight
- Keep out of reach of children and curious pets
- If irritation occurs, stop use immediately and consult a healthcare provider if needed
- Safe for daily use on nails, cuticles, and surrounding skin
